

NORTHERN TERRITORY

NT

Nature overwhelms you in the Northern Territory. The skyscrapers are made out of rock, not steel, & one of the best shows in town is the million star display at night. The Aboriginal presence here is strong, their 60,000 year old cultural & spiritual connection to this region echoes in every rock & landmark. Central Australia holds one of the most culturally significant icons of Aboriginal & Australian culture, Uluru/Ayers Rock.

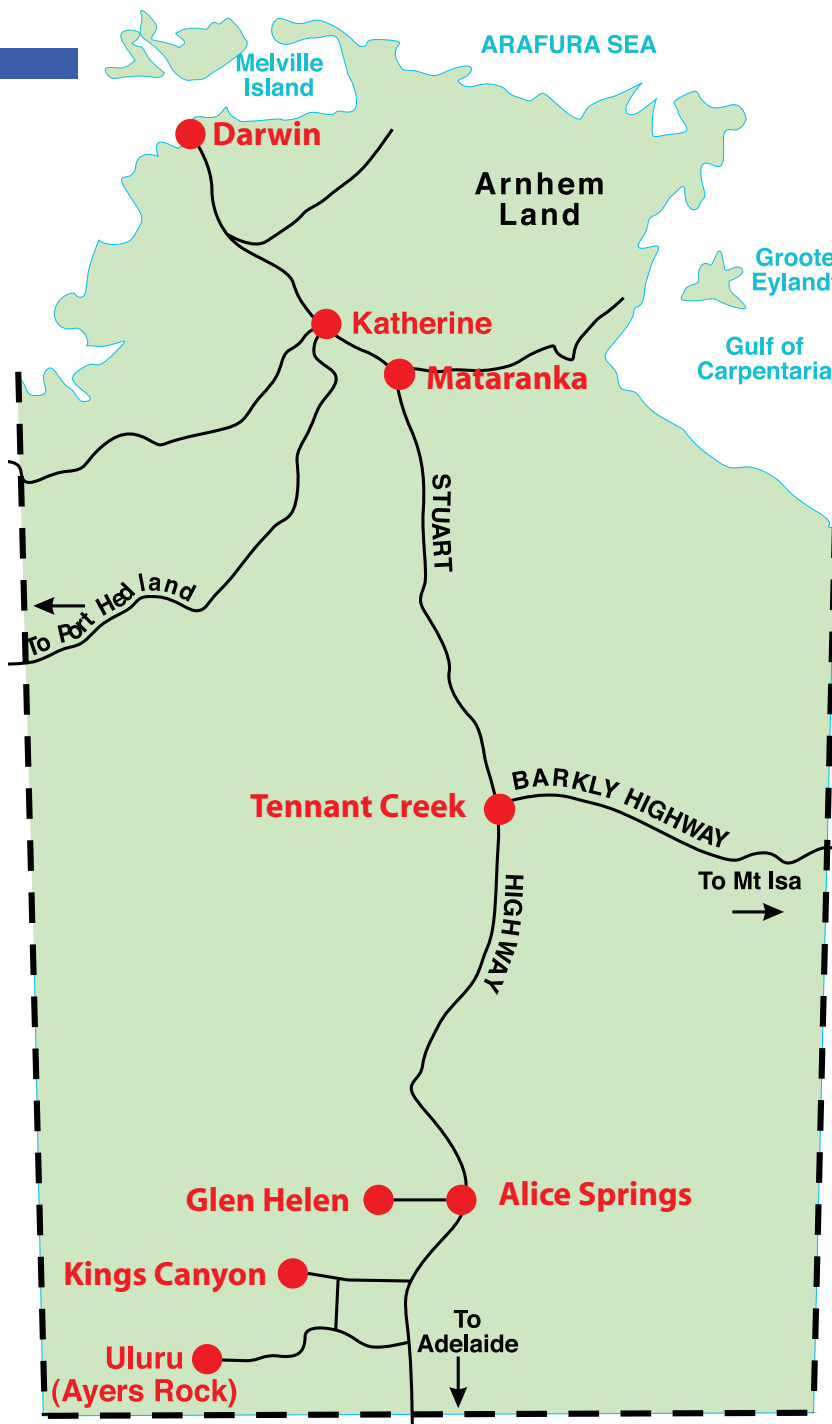

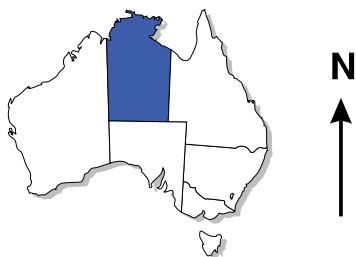

Alice Springs – at the very heart of Australia lies the historic town of Alice Springs – the pioneering gateway to natural monuments, colourful outback culture & ancient Dreamtime lore. Situated 462 kilometres from Ayers Rock/Uluru & positioned between the East & West MacDonnell Ranges, Alice Springs is a great touring base.

Tennant Creek – is an outback town with a rich mining history it is fiercely proud of. This is where Australia's last gold rush happened in the 1930's, & there is still plenty more gold to be found.

Katherine – is south of Darwin & features the sandstone gorges of Katherine Gorge.

Darwin – surprises most people because they are not expecting a bustling, modern capital city of 105,730 people, sitting on one of Australia's prettiest harbours. Green & lush with palms & the perfume of Frangipanis. You'll find plenty of attractions for your entertainment: nightclubs, theatres, a casino, large shopping complexes, restaurants, multicultural markets & international standard sporting facilities. Darwin is the starting point for your holiday at the Top End.

Kakadu National Park – is one of the Northern Territory's best-known national parks. The park is renowned worldwide, having received rave reviews as the backdrop for the Crocodile Dundee movies & having achieved World Heritage status on the basis of both its natural & its cultural significance. Kakadu's rock art sites indicate an Aboriginal presence tens of thousands of years ago, as well as the thriving modern town of Jabiru & a working uranium mine.
